WELCOME TO RENTEC DIRECT

Complete these steps to get started with your PM account

Settings

1

Click on **Settings**, and then **Accounting Defaults**. Pay special attention to:

- Default grace period
- Default late fee

It is important to configure Accounting Defaults first as they impact Property and Tenant accounting.

Banking

2

Click on **Accounts** and then **Add an Account** for each account you use to manage your rentals.

This step is crucial for bookkeeping, reporting, and bank reconciliation. This step will NOT connect live to your bank.

Owners

3

Click on **Accounts** and then **Add an Owner** before adding any Properties into your software.

Adding owners before properties will save time and eliminate potential errors.

Managers

4

Click on **Settings** and then **Add a Manager** to add property, marketing, and/or maintenance managers.

Managers can be assigned with or without account access. Additional subusers can be added later.

Properties

5

Click on **Properties** and then **Add a Property** to begin adding the details of your property.

Be sure to link default income and expense accounts, property managers, property owners, and management fees.

Tenants

6

Click on **Properties** and then the **Place New Tenant** link on the property they reside to create a new tenant record.

You may also add Tenants without moving them in by clicking on **Tenants** and the **Add New Tenant** option.

NAVIGATION TIPS

It's easy to find the information you need in your software

Click on the **blue “?”** for useful advice.

The **pencil/paper icon** gives you quick editing options.

Right-click on a property, tenant, or account to access more options.

Click on the balance in each tab to view a **Ledger of transactions**

Filters on each page isolate information quickly.

The **Summary** page displays important notices about your rental portfolio activity.
